### **REASONS FOR ALLOWANCE**

1. Claims 1-27 are allowed. The following is a statement of the examiner's reasons for allowance. The present application relates to an ophthalmic data measuring apparatus for measuring apparatus. Regarding claim 1, the prior art fails to disclose that the calculation section comprises the first, second and third means as claimed. Regarding claims 25 and 26, the prior art fails to disclose the first, second and third step as claimed. Regarding claim 27, the prior art fails to disclose a calculation section for receiving pupil data including a pupil image of the eye to be examined in a measurement environment, calculating a pupil diameter under the measurement environment based on the received pupil data, and obtaining an optical characteristic of the eye to be examined based on the calculated pupil diameter and an output signal from the first light receiving part. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

2. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Information Disclosure Statement***

2. Some of the references cited in the Search Report PCT/JP2004/000794 submitted on 08/02/05 have been considered, but will not be listed on any patent resulting from this application because they were not provided on a separate list in compliance with 37 CFR 1.98(a)(1). In order to have the references printed on such resulting patent, a separate listing, preferably on a PTO/SB08A and 08B form, must be filed within ONE MONTH of the mailing date of this communication. NO EXTENSION OF TIME WILL BE GRANTED UNDER EITHER 37 CFR 1.136(a) OR (b) to comply with this requirement.

***Other Information/Remarks***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mihashi et al. (US Patent 7,216,980) and Mihashi et al. (US Patent 6,905,209) discloses similar ophthalmic data measuring apparatus.
